

How Waynes Pest Control Improved Rankings and Gained Clicks and Impressions in 6 Months

Overview

The client felt that their existing site was outdated and needed a new look. The original site was also in a propriety web platform that limited the customizations available for content, images, buttons, and SEO optimizations.

Our Approach

We redesigned and hosted the site on WP Engine to make it easier for the client to manage. The new design retained the same colors and elements but presented them in a more user-friendly and visually appealing way. Examples include:

A clearer description on the homepage of the areas where Waynes Pest Control provides services.
